

Sustainability by Design: A Journey Through Intelligent GRC

**AUG
20-21
2026** Tentrem Hotel
Special Region of Yogyakarta

Sustainability has become a cornerstone of smart, future-ready organizations.

In a world shaped by constant change, businesses must evolve to stay resilient, competitive, and compliant. That means **rethinking** how we approach governance, risk, and compliance (GRC), and embracing the transformative power of AI and ESG integration.

This seminar is a gathering place for **forward-thinking GRC professionals** to connect, collaborate, and explore how innovation and sustainability go hand in hand. Together, we'll dive into practical insights, real-world case studies, and emerging strategies that can strengthen governance, sharpen risk management, and make compliance more agile.

Join us to gain fresh perspectives, tackle tomorrow's challenges, and turn sustainability into your next strategic advantage.
